9.3.1 Visitors to Communicable Disease Control Centers by Profession, Nationality and Result	45
BRIEF SUMMARY:	46

CHAPTER ONE: MINISTRY OF HEALTH & PREVENTION

1.1 Ministry of Health & Prevention

1.1.1 ABOUT MOHAP:

Since the creation of the UAE's union on December 2, 1971, the country's health sector has witnessed great qualitative accomplishments in a bid to meet various health challenges and keep pace with global developments. From day one, the UAE recognized the importance and necessity of making the most of all advanced technologies and resources to improve this vital sector, while providing an appropriate healthy environment, believing that promoting the lives of its people is the end goal and focus of development, to help them fulfil their national responsibilities, and contribute effectively to the process of development.

The health sector is one of the most developed in the UAE and ranks first worldwide across several approved health indicators, thanks to following a health system based on the highest international standard in addition to developing the readiness of the health system to deal with pandemics and health risks, which made the country one of the best countries in the quality of healthcare.

Guided and supported by our wise leadership, the Ministry has been keen to adopt and launch many initiatives and projects to promote the health of the community through comprehensive and innovative health services of top-notch quality and prioritizing patients over anything else.

The ministry has also adopted a methodology that applies the highest standards of excellence and professionalism, built state-of-the-art hospitals equipped with the latest equipment across the country, and highly experienced medical staff and launched several campaigns to enhance health awareness of the community. The UAE's interest in the health sector is also reflected in the national health strategy.

From applying international standards in infrastructure management in health facilities to building quality systems and safety therapeutic, health and pharmaceutical systems in accordance with international standards and providing a vital legislative framework and governance, the ministry has been keen to develop health information systems and provide regulatory and oversight services to the health sector.

In addition, the UAE is geared towards artificial intelligence and digital medical services. The Ministry of Health and Prevention has developed a comprehensive plan to integrate artificial intelligence 100% into medical services, in line with the UAE's AI Strategy, in accordance with the UAE's 2071 centenary to transform patient healthcare.

1.1.2 VISION:

 A world-class health system for a community with long healthy life expectancy

1.1.3 MOHAP CORE VALUES:

-  First Community Health
-  Innovation & Proactiveness
-  Agility, Resilience & Readiness
-  Leadership & Compatibility
-  Integrity and Accountability
-  Equality and Transparency

1.1.4 MOHAP STRATEGIC OBJECTIVES 2023 – 2026:

- 1st objective** Develop the organization of the health sector in a comprehensive and integrated manner to enhance its competitiveness, flexibility, effectiveness and alignment with the directions and priorities of the Country ways that ensure community protection from diseases.
- 2nd objective** Ensure provision of proactive and quality healthcare services through qualified and licensed specialists and enable the private sector structured participation through a credible and reliable governance system
- 3rd objective** Upgrade the level of public health for a preventive, aware, safe and committed community

1.2.5 MOHAP ENABLING OBJECTIVES:

- 1st objective** Attract and empowering the best human talent, providing efficient and effective corporate services and digital infrastructure
- 2nd objective** Enhancing innovative practices based on agility, proactivity, responsiveness and readiness within the work system

1.1.6 OUR MAIN OBJECTIVES:

- 1st objective** Plan and manage policies, legislation, research and economics of the health sector based on qualified and reliable big data
- 2nd objective** Manage preventive and community healthcare programs to enhance the quality of healthy life at the country level
- 3rd objective** Regulate the healthcare sector through licensing, monitoring and inspecting companies, individuals and medical products

1.2.7 MISSION:

-  Govern an integrated preventive and therapeutic healthcare system through the development of world-class policies and legislation, and management of public healthcare programs to ensure proactive, interconnected, comprehensive and innovative health services based on digital data for all segments of the community by qualified and specialized professionals.

2.1 Overview:

2.2 Global competitive health indicators

HIV prevalence, % adult pop.

Malaria cases/100,000 pop.

Maternal mortality ratio

Sex Ratio at Birth

Prevalence of stunting in children under 5 years of age (%)

Prevalence of wasting in children under 5 years of age (%)

Maternal mortality rate (per 100,000 live births)

Incidence of tuberculosis (per 100,000 population)

Surviving infants who received 2 WHO-recommended vaccines (%)

Birth registrations with civil authority (% of children under age 5)

Health infrastructure

Antenatal care coverage

Death and injury from forces of nature

Diphtheria immunization

Existence of national screening programs

Health problems

Healthcare coverage

Maternal mortality

Measles immunization

Satisfaction with healthcare

Terrorism deaths

Terrorism injuries

Household air pollution attributable to deaths (deaths/100,000)

2.1 Overview:

Global health indicators in which the country ranked in the top ten worldwide

2.2 Global competitive health indicators

The tables below show the indicators of the Global competitive health indicators

1	Indicator	Organized violence, deaths per 100,000 pop
	Definition	Number of organized violence, deaths per 100,000 population 2016 through 2020 moving average.
	Rank	1
	Report Publisher	World Economic Forum
	Year of Report	2021

2	Indicator	Incidence of tuberculosis (per 100,000 population)
	Definition	The estimated rate of new and relapse cases of tuberculosis each year expressed per 100,000 people. All forms of tuberculosis are included, including cases of people living with HIV.
	Rank	2
	Report Publisher	About the UN Sustainable Development Solutions Network
	Year of Report	2023

3	Indicator	Maternal mortality
	Definition	The rate of women who die from pregnancy-related causes while pregnant, or within 42 days of pregnancy termination per 100,000 live births.
	Value	3
	Rank	6
	Report Publisher	Legatum Institute
	Year of Report	2023

4	Indicator	Sex Ratio at Birth
	Definition	Sex ratio at birth refers to male births per female births. The data are 5-year averages
	Rank	1
	Report Publisher	World Economic Forum
	Year of Report	2023

5	Indicator	Prevalence of stunting in children under 5 years of age (%)
	Definition	The percentage of children up to the age of 5 years that are stunted, measured as the percentage that falls below minus two standard deviations from the median height for their age, according to the WHO Child Growth Standards. UNICEF et al. (2016) report an average prevalence of wasting in high-income countries of 2.58%. We assumed this value for high-income countries with missing data.
	Rank	10
	Report Publisher	About the UN Sustainable Development Solutions Network
	Year of Report	2023

6	Indicator	Health outcomes
	Definition	Extend of openness and coverage of Health outcomes statistics.
	Rank	3
	Report Publisher	Open Data Oversight Organization
	Year of Report	2023

7	Indicator	Maternal mortality ratio
	Definition	Number of deaths due to pregnancy-related causes per 100,000 live births.
	Rank	9
	Report Publisher	United Nations Development Program
	Year of Report	2022

8	Indicator	Tuberculosis treatment coverage
	Definition	The percentage of tuberculosis cases that are treated.
	Value	87
	Rank	6
	Report Publisher	Legatum Institute
	Year of Report	2023

9	Indicator	Birth registrations with civil authority (% of children under age 5)
	Definition	The percentage of children under the age of five whose births are reported as being registered with the relevant national civil authorities.
	Value	100
	Rank	1
	Report Publisher	About the UN Sustainable Development Solutions Network
	Year of Report	2023

10	Indicator	Health infrastructure
	Definition	Health infrastructure meets the needs of society
	Rank	9
	Report Publisher	International Institute for Management Development
	Year of Report	2023

11	Indicator	Antenatal care coverage
	Definition	The percentage of women aged 15-49 years who were attended to at least once during pregnancy by skilled health personnel (doctor, nurse or midwife).
	Value	100
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2023

12	Indicator	Death and injury from forces of nature
	Definition	The rate of age-standardized disability adjusted life years lost due to forces of nature
	Value	0
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2023

13	Indicator	Adolescent fertility rate (births per 1,000 females aged 15 to 19)
	Definition	The number of births per 1,000 females between the age of 15 and 19.
	Rank	9
	Report Publisher	International Institute for Management Development
	Year of Report	2023

14	Indicator	Existence of national screening programs
	Definition	A composite measure of whether a country has a national screening program for cervix cancer, breast cancer and HbA1c testing.
	Value	1
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2023

15	Indicator	Health problems
	Definition	The percentage of people who responded "Yes" to the survey question: "Do you have any health problems that prevent you from doing any things people your age normally can do?"
	Score	0.9
	Rank	3
	Report Publisher	Legatum Institute
	Year of Report	2023

16	Indicator	Healthcare coverage
	Definition	The percentage of population without healthcare coverage, either through private insurance, or state-provided coverage (regardless of whether they can effectively access healthcare through that coverage).
	Value	0
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2023

17	Indicator	Measles immunization
	Definition	The percentage of children aged 12-23 months who received the measles vaccination before 12 months or at any time before the survey
	Value	99
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2023

18	Indicator	Satisfaction with healthcare
	Definition	The percentage of people who responded "Satisfied" to the survey question: "In the city or area where you live, are you satisfied or dissatisfied with the availability of quality healthcare?"
	Score	0.9
	Rank	2
	Report Publisher	Legatum Institute
	Year of Report	2023

19	Indicator	Indoor air quality
	Definition	The rate of age-standardized disability adjusted life years lost from indoor air pollution from household use of solid fuels.
	Value	0.13
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2023

CHAPTER THREE: POPULATION AND VITAL STATISTICS

3.1 UAE Population by Gender, 2023

3.2 UAE Births and Deaths

3.2.1 Crude Birth Rate

3.2.2 Births and Deaths in the UAE

3.2.3 Stillbirth Rate

3.2.4 Newborn Mortality Rate

3.2.5 Infant Mortality Rate

3.2.6 Children under 5 years old Mortality Rate

3.2.6 Deaths

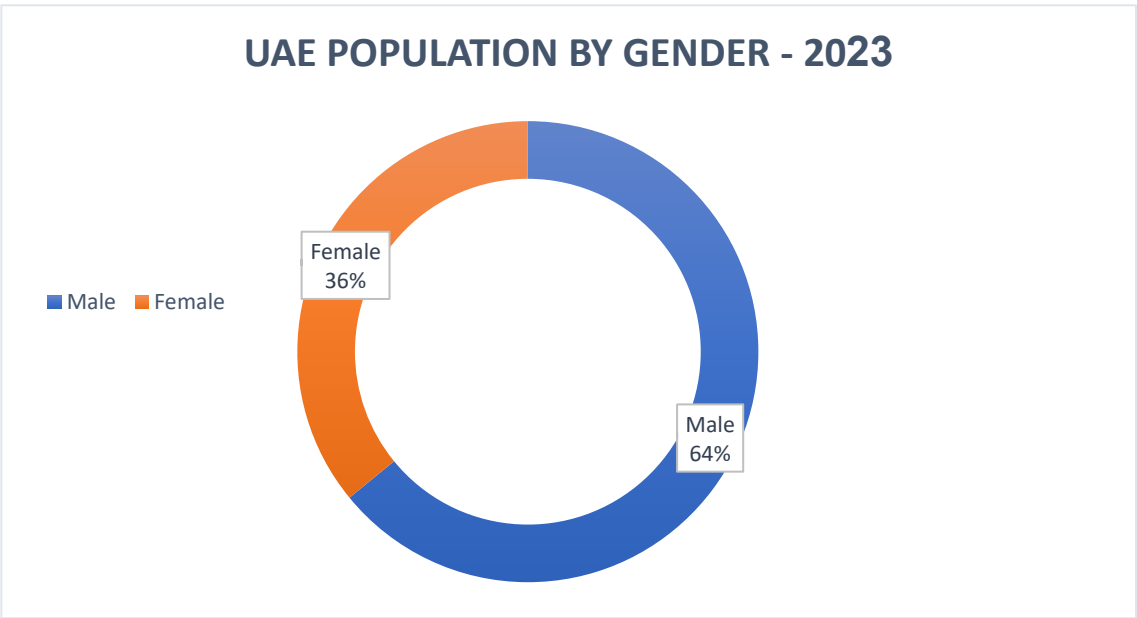

3.2.7 Low Weight at birth

3.1 UAE POPULATION BY GENDER, 2023

The population of the United Arab Emirates bifurcated by Gender for year 2023 is presented below.

Population - 2023		Total
Male	Female	
6,842,905	3,835,651	10,678,556

*Data for 2023, Preliminary

**Source – Federal Competitiveness and Statistics Center – Open Data

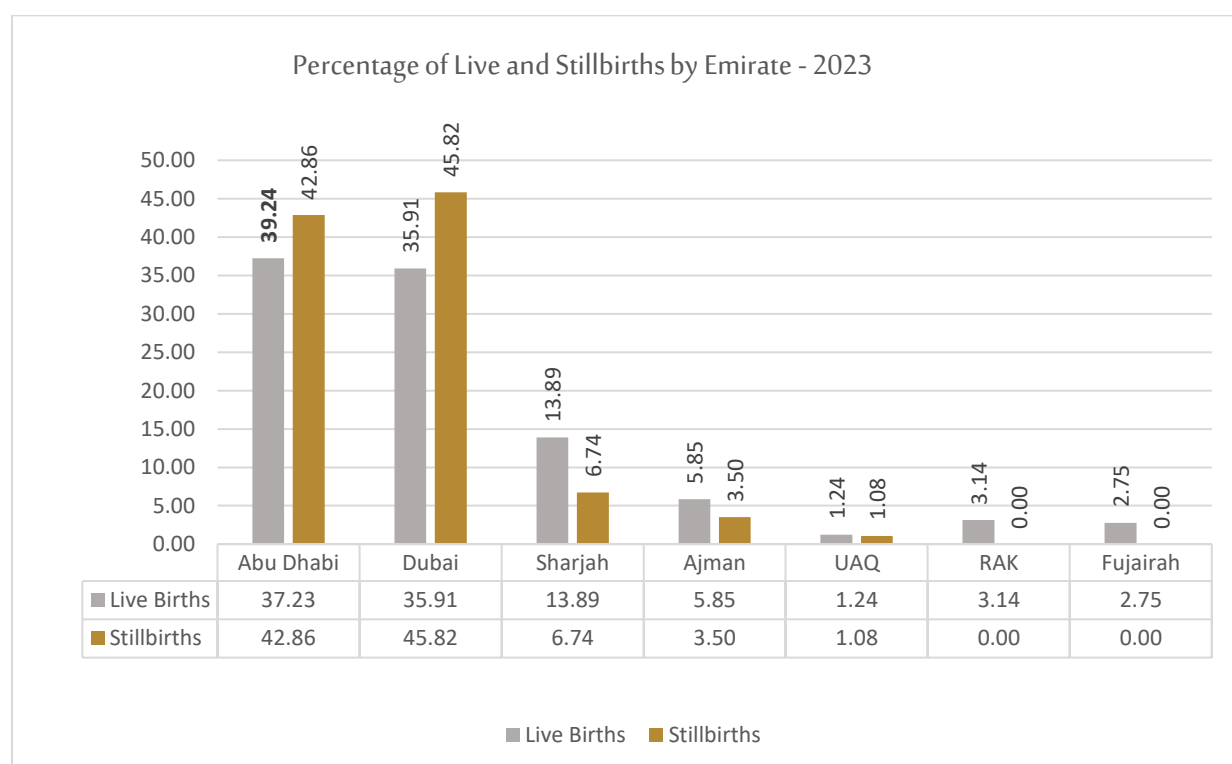

3.2 UAE Births and Deaths

3.2.1 Crude Birth Rate

The number of registered live births reached (101,088) in 2023. Citizens constituted 30% of the total births and males constituted (52%) of the total citizen births, compared to approximately (48%) for females. With a total crude birth rate (09.50) One birth per thousand population in 2023. The stillbirth rate was 3.65 per thousand live births in 2023.

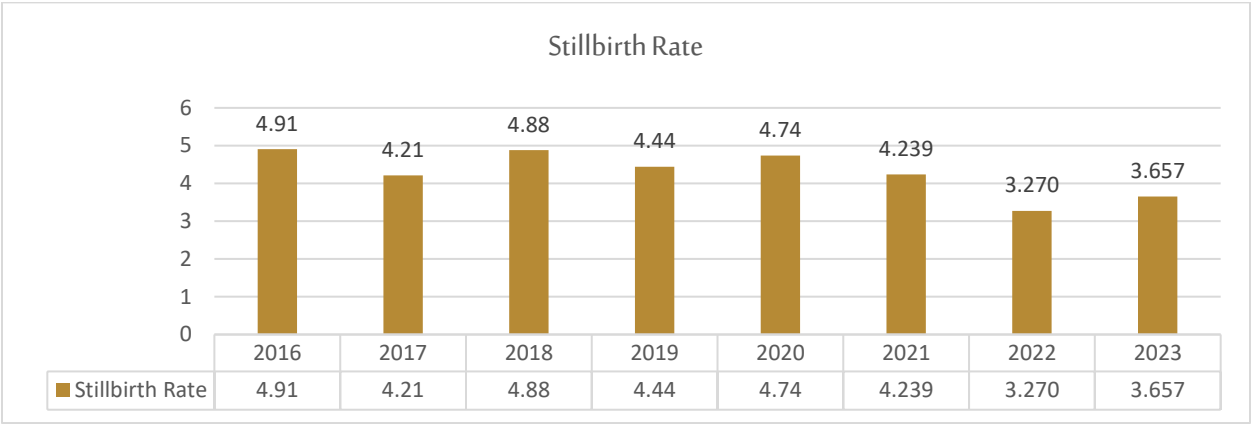

3.2.2 Births and Deaths in the UAE for the year 2023

Data	Citizen				Non-Citizen				Total			
	Male	Female	Not Known	Total	Male	Female	Not Known	Total	Male	Female	Not Known	Total
Registered Live Births	15,485	14,440	1	29,926	36,633	34,528	1	71,162	52,118	48,968	2	101,088
Registered Still Births	8	9	61	78	104	91	98	293	112	100	159	371
Total Registered Deaths	1,523	1,235	3	2,761	6,572	2,180	1	8,753	8,095	3,415	4	11,514

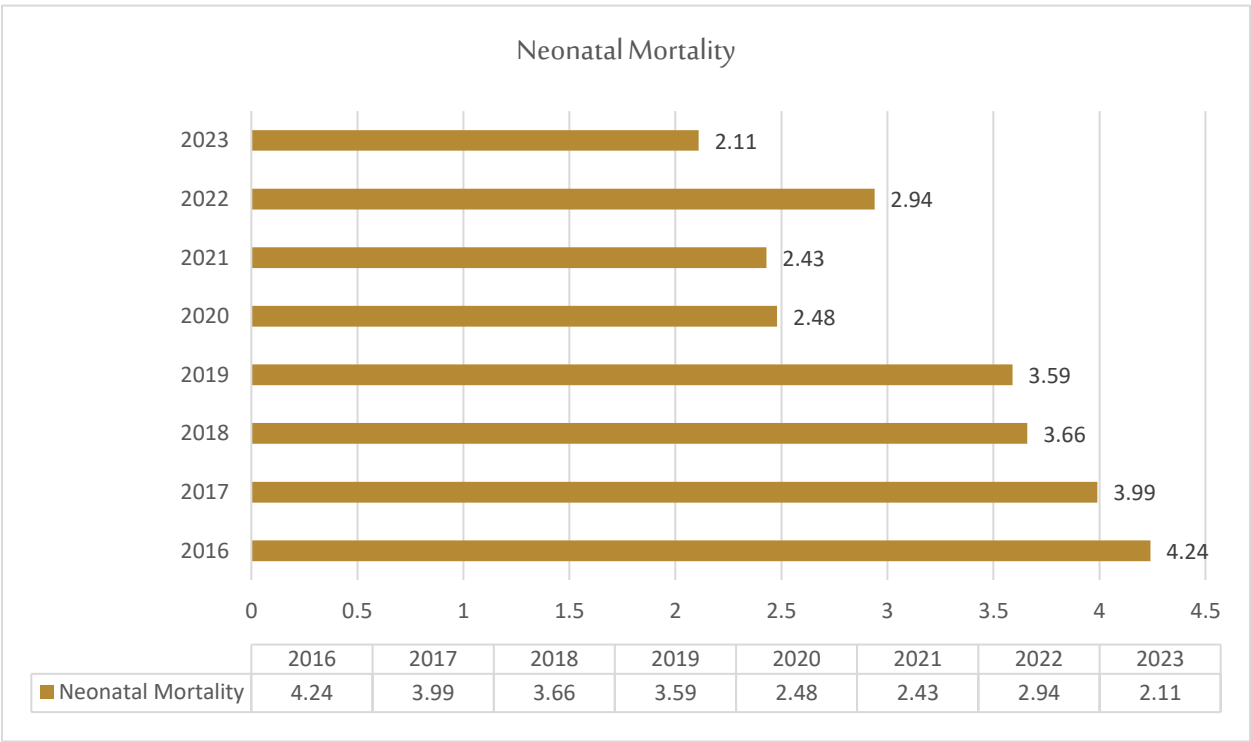

3.2.3 Still Birth Rate

The stillbirth rate increased from 3.27 in 2022 to 3.66 in 2023. The graph below shows the values for previous years.

3.2.4 Neonatal Mortality Rate

The neonatal mortality rate declined from 2.94 per 1,000 live births in 2022 to 2.11 per 1,000 live births in 2023

3.2.5 Infant Mortality Rate

In 2023, the infant mortality rate was 3.57 per 1,000 live births, reflecting a decrease from 2022 when it was 4.6 per 1,000 live births. The graph below illustrates the trends and values from previous years

3.2.6 Children under 5 years old Mortality Rate

In the United Arab Emirates, the mortality rate for children under five years of age decreased from 5.88 per 1,000 live births in 2022 to 4.87 per 1,000 live births in 2023

3.2.6 Deaths

The number of crude deaths recorded in the country reached (11,514) deaths, with a crude rate of (1.08) per thousand population, as this indicator is considered one of the lowest recorded global indicators

Data	Citizen				Non-Citizen				Total			
	Male	Female	Not Known	Total	Male	Female	Not Known	Total	Male	Female	Not Known	Total
Total Registered Deaths	1,523	1,235	3	2,761	6,572	2,180	1	8,753	8,095	3,415	4	11,514

3.2.7 Low Weight at birth

According to the WHO & UNICEF report (UNICEF-WHO LOW BIRTHWEIGHT ESTIMATES), the cut-off point for low birth weight is 500g and records more than 6000g. In addition, we excluded any missing data out of the population under study. Therefore, for applying this rule, we conducted the study calculation on 96,431 out of all total births in UAE which equals 99.8% of all births.

low weight at birth from 2020 to 2023

	2020	2021	2022	2023
Percentage of Low Weight at births	11.23%	12.57%	12.77%	12.13%

CHAPTER FOUR: HEALTH WORKFORCE

4.1 About the health workforce

4.2 Overall UAE Health Workforce per emirate, gender and sector

4.2.1 Table - Technical manpower by emirate and sector

4.2.2 Percentage distribution of the health workforce in the emirates of the country

4.3 Medical Doctors in UAE

4.1 ABOUT THE HEALTH WORKFORCE

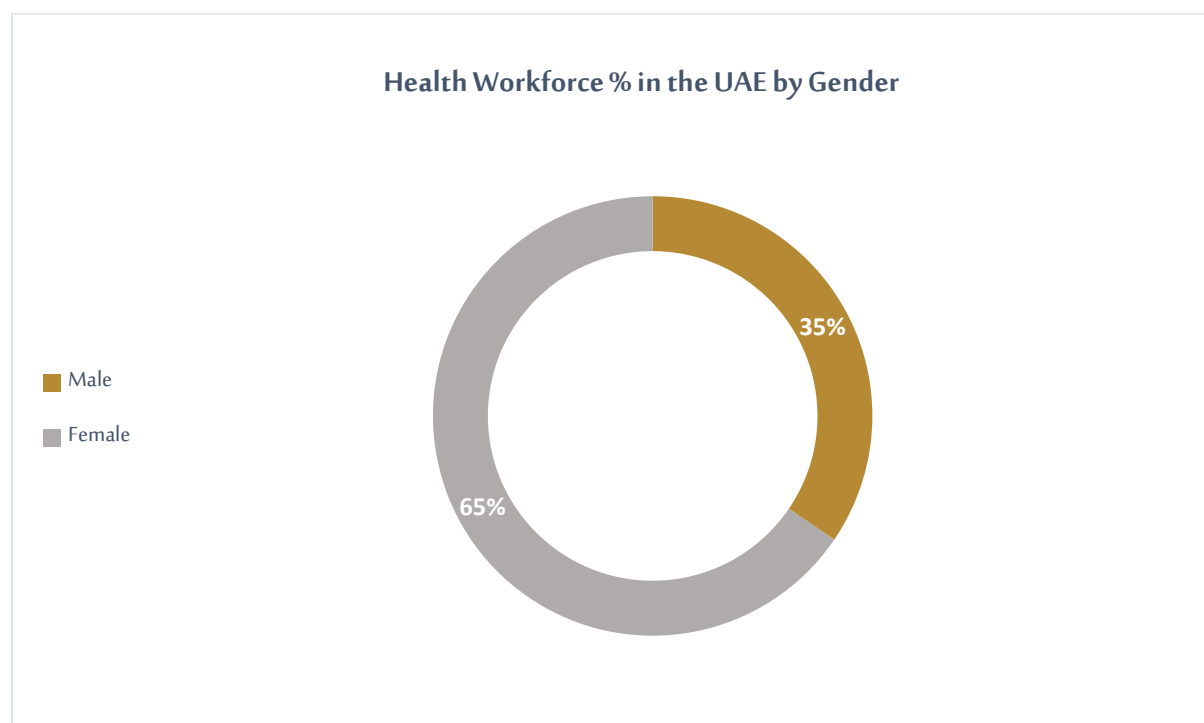

Due to the expansion of health services under the Ministry of Health and Prevention, it is essential to strengthen the workforce in the health sector.

The number of workers in the health sector in the country at the end of December 2023 reached (155,618), These including (31,844) Medical Doctors, (9,413) Dentists, (16,263) pharmacists and (65,510) Nurses distributed over the emirates of the country according to the table below.

4.2 OVERALL UAE HEALTH WORKFORCE PER EMIRATE, GENDER AND SECTOR

Table - Technical manpower by Gender

Gender	Medical Doctors	Dentists	Pharmacists	Nurses	Technicians	Total
Male	17,435	4,298	7,861	11,865	12,262	53,721
Female	14,409	5,115	8,402	53,645	20,326	101,897
Total	31,844	9,413	16,263	65,510	32,588	155,618

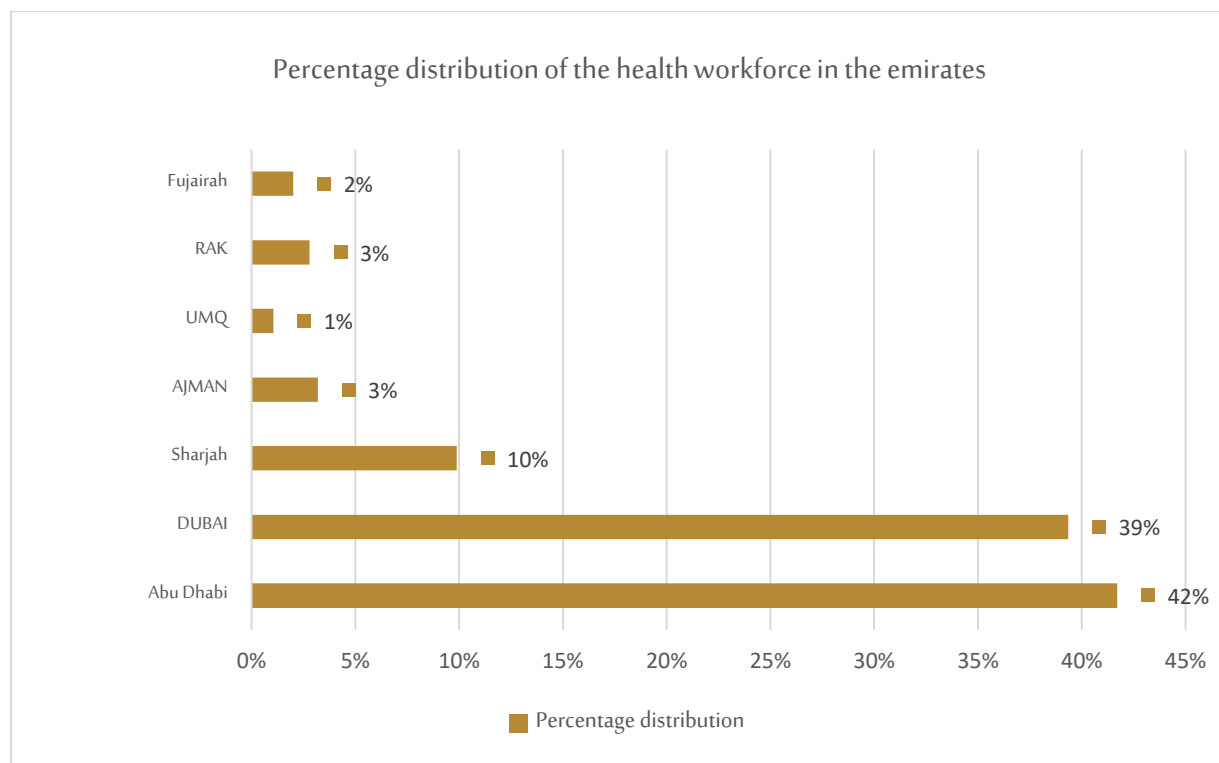

4.2.1 TABLE - TECHNICAL MANPOWER BY EMIRATE AND SECTOR

Distribution of the health workforce in the emirates of the country							
Emirate	SECTOR	Medical Doctors	Dentists	Pharmacists	Nurses	Technicians	Grand Total
Abu Dhabi	Government	5,070	371	1,038	11,675	5,630	23,784
	Private	7,549	2,935	4,289	18,092	8,256	41,121
Total Abu Dhabi		12,619	3,306	5,327	29,767	13,886	64,905

CHAPTER FIVE: HOSPITALS AND BEDS

5.1 HOSPITALS (GOVERNMENT & PRIVATE)

5.2 NUMBER OF BEDS AND OCCUPANCY RATE IN UAE HOSPITALS

5.3 BED TURNOVER RATE

5.4 THE NUMBER OF HOSPITALS AND BEDS DIVIDED BY SECTOR AND EMIRATE

The strategy of the Ministry of Health and Prevention aims to achieve a health system with international standards by taking preventive measures which meet the needs of individuals and through the decrease in rate of lifestyle-related diseases.

5.1 HOSPITALS (GOVERNMENT AND PRIVATE)

In the United Arab Emirates there are 173 hospitals and 6,854 health centers. The country is divided into 56 public hospitals and 117 private hospitals.

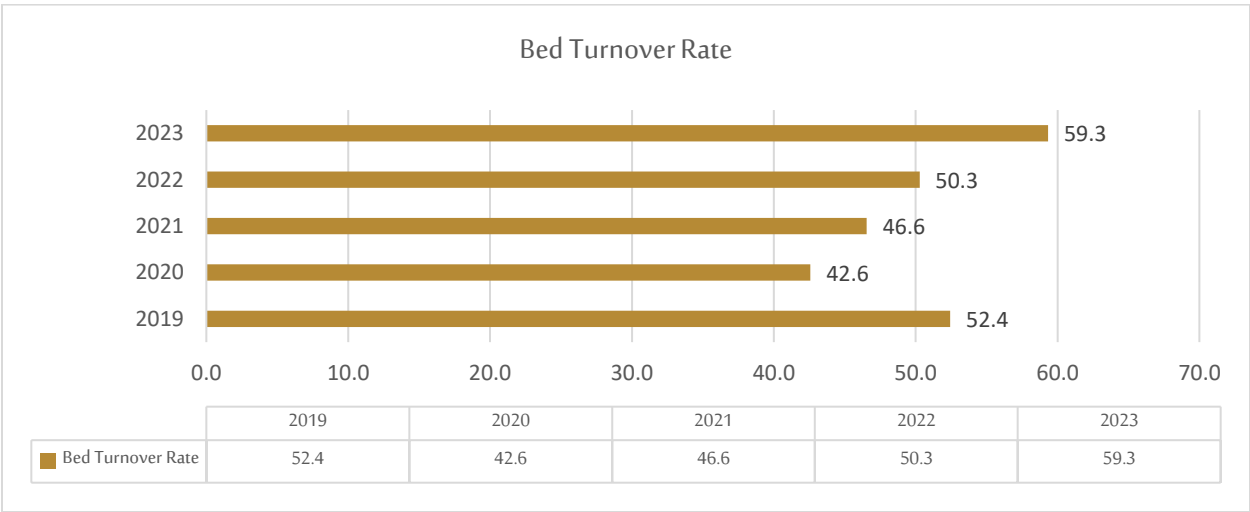

5.2 NUMBER OF BEDS AND OCCUPANCY RATE IN UAE HOSPITALS

The total number of beds decreased from 19,102 in 2022 to 18,497 in 2023 comprising of 9,514 beds in the government sector and 8,983 beds in the private sector.

The Bed occupancy rate in 2023 reached \approx 50%.

5.3 BED TURNOVER RATE 2023

The bed turnover rate increased from 50.3 for the year 2022 to 59.3 for the year 2023, coinciding with the increase in the number of hospitals in the country the graph below shows the values of previous years

5.4 LIST OF THE OPERATING HOSPITALS AND THEIR BEDS DIVIDED BY SECTOR AND EMIRATE FOR THE YEAR 2023

NUMBER OF OPERATING HOSPITALS AND BEDS BY SECTOR AND EMIRATE			
Emirate	Sector	No. of Hospitals	No. of Beds
Abu Dhabi	Governmental	26	4,092
	Private	43	3,471
	Total	69	7,563
Dubai	Governmental	7	2,273
	Private	45	3,904
	Total	52	6,177
Sharjah	Governmental	8	1,125
	Private	20	767
	Total	28	1,892
Ajman	Governmental	4	184
	Private	4	590
	Total	8	774
UAQ	Governmental	2	315
	Private	0	0
	Total	2	315
RAK	Governmental	6	1,067
	Private	3	127
	Total	9	1,194
Fujairah	Governmental	3	458
	Private	2	124
	Total	5	582
Total	Governmental	56	9,514
	Private	117	8,983
	Total	173	18,497

Note that: The number of operating hospitals differs from the number of licensed hospitals

CHAPTER SIX: HOSPITAL SERVICES FOR PATIENTS

6.1 HOSPITAL SERVICES FOR PATIENTS ATTENDING TO THE HOSPITAL BY EMIRATES AND SECTOR

6.2 PATIENTS ATTENDING TO THE ACCIDENT AND EMERGENCY DEPARTMENT

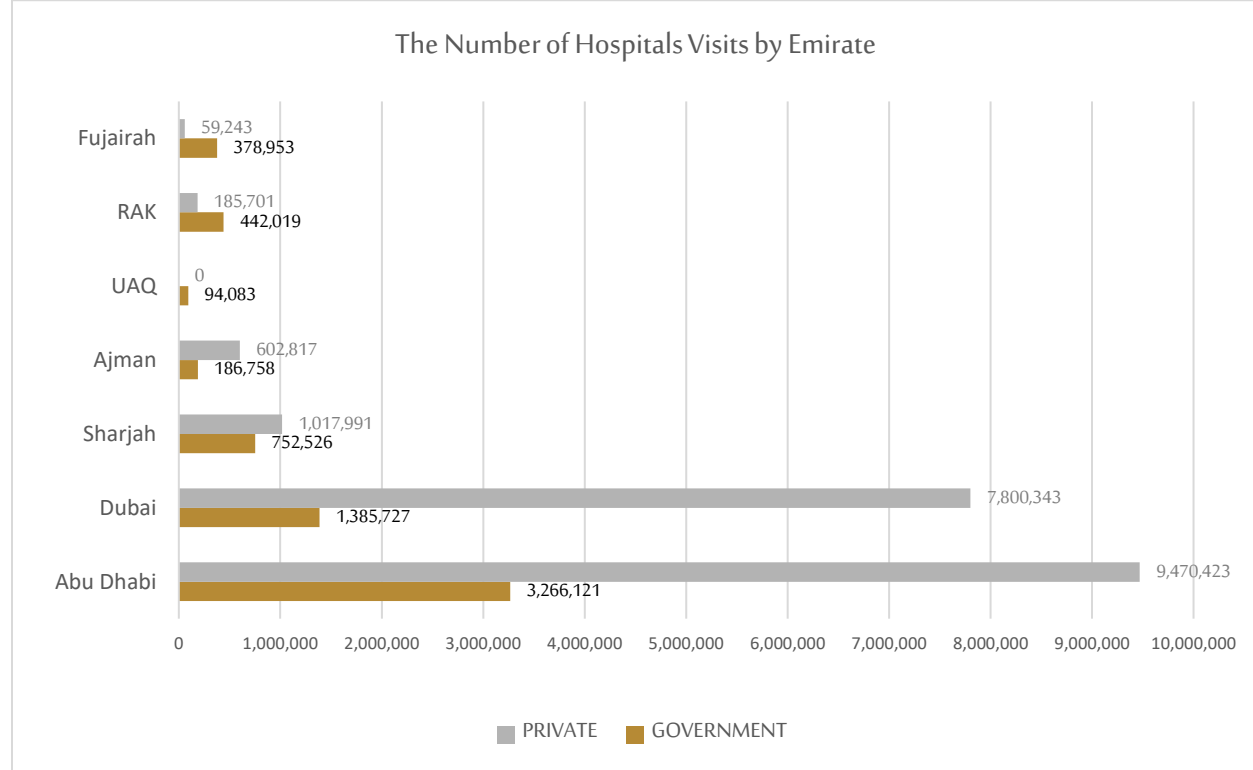

6.3 HOSPITAL SERVICES FOR PATIENTS RESIDING IN THE COUNTRY BY EMIRATES

6.3.1 HOSPITAL SERVICES FOR PATIENTS RESIDING IN THE COUNTRY BY SECTOR

6.1 HOSPITAL SERVICES FOR PATIENTS ATTENDING TO THE HOSPITAL BY EMIRATE AND SECTOR

The table below shows the total number of patients who attended hospitals at the state level for the year 2023. The Emirate of Abu Dhabi accounts for the largest share of hospital attendances, followed by Dubai and Sharjah in terms of the number of patients. The total number of attendances at government-sector hospitals was 6,506,187 patients, while private-sector hospitals recorded 19,136,518 attendances. These figures represent the total number of patients who received services at hospitals, covering all departments.

Number of Hospitals Visits Per Sector & Emirate			
Emirates	GOVERNMENT	PRIVATE	Total
Abu Dhabi	3,266,121	9,470,423	12,736,544
Dubai	1,385,727	7,800,343	9,186,070
Sharjah	752,526	1,017,991	1,770,517
Ajman	186,758	602,817	789,575
UAQ	94,083	—	94,083
RAK	442,019	185,701	627,720
Fujairah	378,953	59,243	438,196
UAE	6,506,187	19,136,518	25,642,705

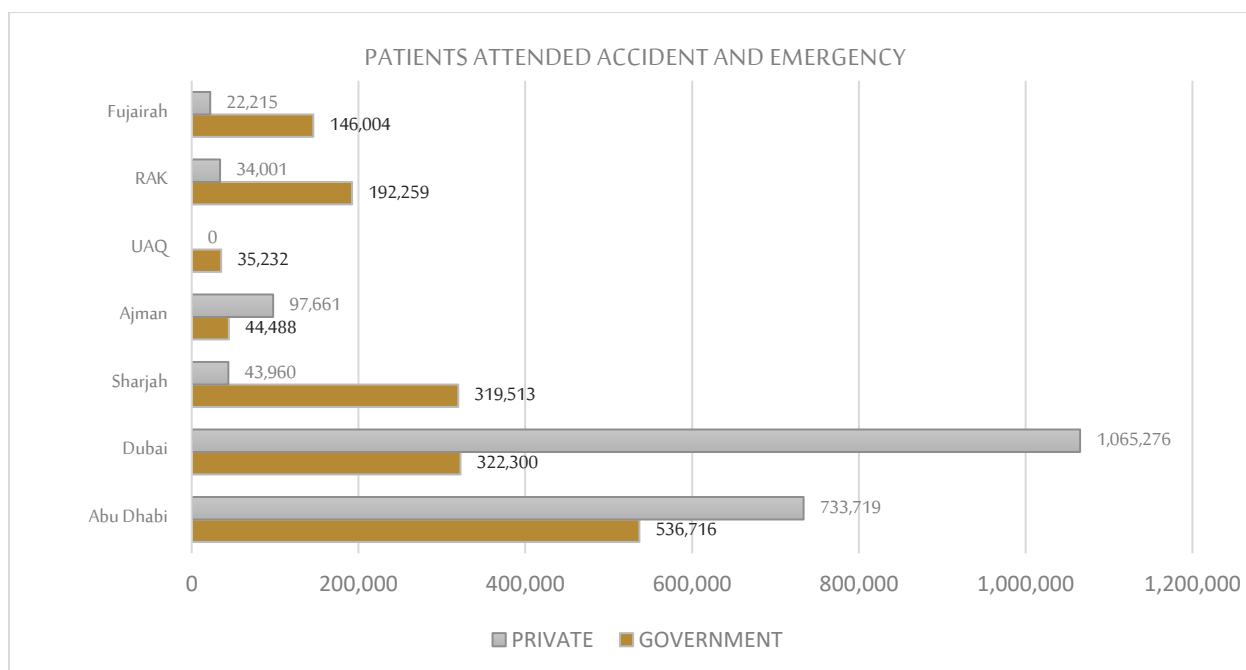

6.2 PATIENTS ATTENDED ACCIDENT AND EMERGENCY DEPARTMENTS

The table below shows the number of visitors to Accident and Emergency clinics of hospitals at the state level for the year 2023, The number of visitors to emergency and accident clinics in hospitals reached 3,593,344 including 1,596,512 in the government sector and 1,996,832 in the private sector.

The total number of A&E visits (3,593,344) is a subset of the overall hospital visits (25,642,705) in the UAE, indicating that A&E visits account for approximately 14% of total hospital visits.

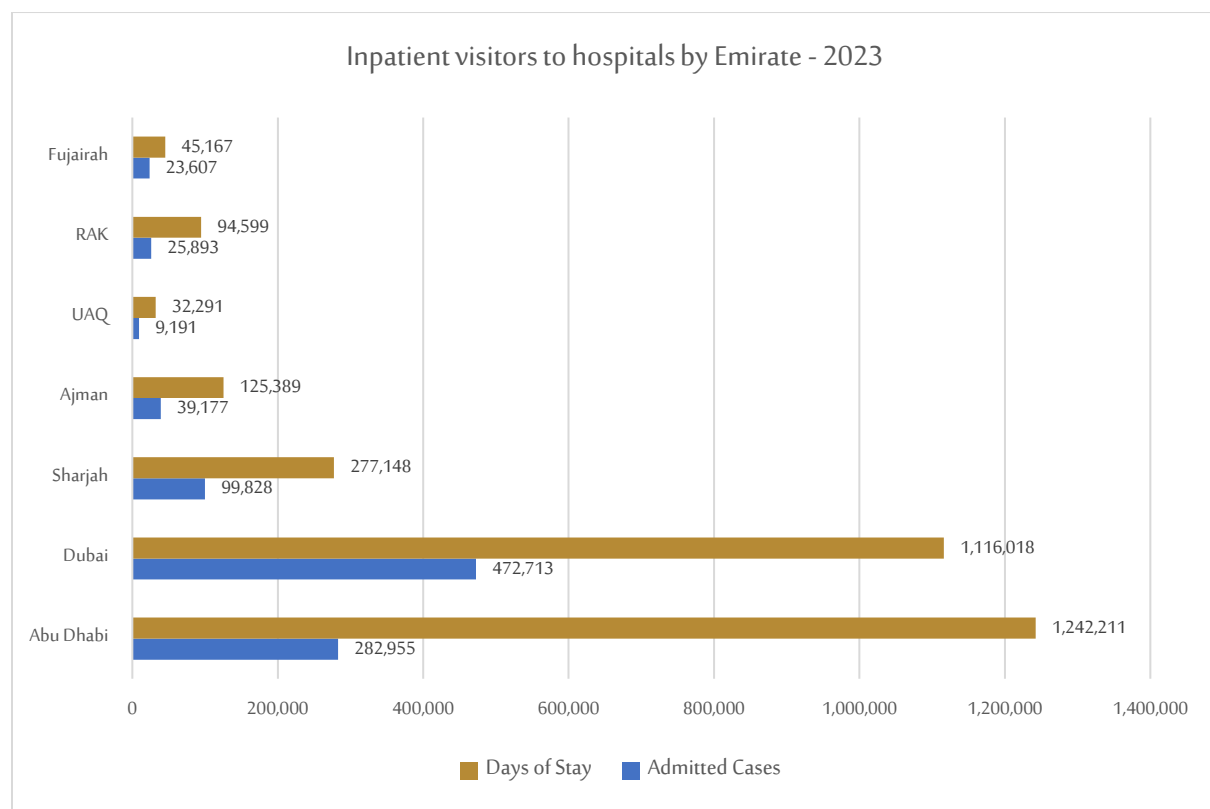

ED Visit			
Emirate	GOVERNMENT	PRIVATE	Total
Abu Dhabi	536,716	733,719	1,270,435
Dubai	322,300	1,065,276	1,387,576

CHAPTER NINE: PREVENTIVE MEDICINE SERVICES

9.1 Overview of Preventive Medicine centres in Medical Districts

9.2 Services of preventive medicine centres at Ministry of Health and Prevention

9.2.1 Communicable diseases recorded by disease and region

9.3 Visitors to Communicable Disease Control Centers by Profession, Region and Result

9.3.1 Visitors to Communicable Disease Control Centers by Profession, Nationality and Result

9.1 OVERVIEW OF PREVENTIVE MEDICINE CENTERS IN MEDICAL DISTRICTS

Preventive medicine departments and centers in the various medical regions implement preventive activities and programs, as they supervise the implementation of preventive programs, health education and communicable disease control programs, which include more than 36 infectious diseases such as:

- Immigrant Disease Control Program.
- Anti-Acquired Immunodeficiency Syndrome Program.
- Malaria Control Program
- The Expanded Immunization Program, which has achieved remarkable growth recently, has led to a reduction in the incidence of most of the child diseases targeted by the program.
- The polio eradication program, the measles eradication program, and others, and as a natural result of the high rates of vaccination coverage, was a noticeable decrease in the incidence of diseases, as the country did not witness any cases of diphtheria, and congenital tetanus was eradicated from the country, so no infections were recorded during

In recent years, in addition to the eradication of poliomyelitis, which has not been recorded for nearly 20 years, and the figure shows the incidence of communicable

Top Ten Notifiable Diseases
