CHAPTER SEVEN: GOVERNMENT HEALTH CENTER SERVICES.....	38
7.1 VISITORS TO GOVERNMENT CENTERS BY EMIRATE AND NATIONALITY	39
7.2 GRAPH OF VISITORS TO GOVERNMENT CENTRE'S BY EMIRATE AND NATIONALITY.....	39
7.3 BASIC VACCINATIONS IN PRIMARY HEALTH CARE CENTERS BY EMIRATE	40
7.3.1 FREQUENCY RATES OF CHILD VACCINATION SERVICES BY NATIONALITY AND EMIRATE FOR THE YEAR 2022.....	40
7.3.2 ILLUSTRATION OF FREQUENCY RATES OF CHILD VACCINATION SERVICES BY NATIONALITY AND EMIRATE FOR THE YEAR 2022	41
CHAPTER EIGHT: HEALTHCARE FACILITIES LICENSED IN UAE	42
8.1 NUMBER OF HEALTH CARE FACILITIES BY EMIRATE AND SECTOR-2022.....	43
8.2 HEALTH FACILITIES BY FACILITY TYPE, EMIRATE AND SECTOR	44
8.2.1 Types of government health facilities classified according to each emirate	44
8.2.2 Types of private health facilities classified according to each emirate.....	45
CHAPTER NINE: PREVENTIVE MEDICINE SERVICES	46

9.1 OVERVIEW OF PREVENTIVE MEDICINE CENTERS IN MEDICAL DISTRICTS.....	47
9.2 SERVICES OF PREVENTIVE MEDICINE CENTERS AT MINISTRY OF HEALTH AND PREVENTION	48
9.2.1 Communicable diseases recorded by disease and region for 2022.....	48
9.3 VISITORS TO COMMUNICABLE DISEASE CONTROL CENTERS BY PROFESSION, REGION AND RESULT 2022.....	51
9.3.1 Visitors to Communicable Disease Control Centers by Profession, Nationality and Result 2022	51
BRIEF SUMMARY: 52	

1.1 HEALTH SECTOR IN THE UAE

1.2 MINISTRY OF HEALTH & PREVENTION

1.2.1 ABOUT MOHAP:

1.2.2 VISION

1.2.3 OUR CORE VALUES

1.2.4 OUR STRATEGIC OBJECTIVES 2023 – 2026:

1.2.5 OUR ENABLING OBJECTIVES:

1.2.6 OUR MAIN OBJECTIVES:

1.2.7 MISSION:

1.1 Health Sector in the UAE

The health sector in the country has achieved many developments that have taken place in all its components and components, thanks to the continuous directives of the rational leadership, which always emphasizes the need to provide all medical services to all, in a distinct and high quality, through the Ministry of Health and Prevention, which in turn develops plans and strategies. The country's national health which is positively reflected on the health and safety of citizens and residents on the territory of the state. In coordination with state institutions and other bodies that provide health services, these bodies are:

Entity	Services
Ministry of Presidential Affairs (MOPA)	They provide health treatment services through (4) hospitals distributed across emirates of Umm Al Quwain and Ras Al Khaimah (which were opened at the beginning of 2015) and Ajman (starting from the year 2017) to provide highly specialized treatment services such as oncology, cardiovascular surgery, neurosurgery and general treatment.
Ministry of Interior (MOI)	They provide services to police employees and their families, whether in the Ministry of the Interior or in the general police departments, and several clinics follow.
Department of Health – Abu Dhabi (DOH)	It was established in 2001 to include Sheikh Khalifa Medical City, Al Rahba Hospital, Al Mafrq Hospital in Abu Dhabi, Tawam Hospital in Al Ain and many other distinguished facilities. The IVF laboratory and the reference center for registering cancer cases in Tawam Hospital are among the most advanced models in the country.
Mubadala Health Services Company - Abu Dhabi	They provide health services through two hospitals, Healthpoint and Cleveland.
Dubai Health Authority (DHA)	It was established in 1972 and includes several hospitals and health institutions affiliated with the Dubai government, which are equipped with the latest international standards. The Thalassemia and Genetics Center located in Latifa Hospital (formerly Al Wasl) is one of the active and leading centers in the Middle East, in addition to Al Jalila Hospital, which specializes in pediatric treatments.
Onshore Petroleum Areas	They provide medical services to workers in the sector and their families, as (ADNOC) provides a main hospital (Ruweis) to which some clinics are affiliated in different places

such as Ruwais and Madinat Zayed.etc. It is covered by helicopters and ambulances, and it also provides specialized services for occupational health and preventive measures.

Emirate Health Service (EHS)

EHS Strategy: Emirates Health Services was established with the aim of enhancing the efficiency of the federal health sector in the country, by providing health care and treatment services, and taking preventive measures and combating epidemics and diseases, as well as achieving sustainable development of health care.

Private Sector

While the Ministry and Abu Dhabi Health Authority and the Dubai Health Authority have many medical facilities in the private sector, ranging from hospitals, clinics, specialized health centers, multiple centers and rehabilitation centers.

The Health Policies and Licensing Sector in the Ministry of Health and Prevention plays a major role in coordinating with the private sector to achieve the integration of health services within the framework of the federal rules regulating health professions in the private sector, which are:

Federal Law No. 17 of 1975 AD regarding the practice of the profession of human medicine.

Federal Law No. 4 of 1983 regarding the practice of the profession of pharmacy and pharmaceutical institutions

Federal Law No. 4 of 2015 regarding licensing private health facilities

It contributes to defining the types of facilities and conditions required for the place, workers, equipment and means of supervision to ensure the safety and accuracy of implementing the regulating laws and thus achieving efficiency.

1.2 Ministry of Health & Prevention

1.2.1 ABOUT MOHAP:

Since the creation of the UAE's union on December 2, 1971, the country's health sector has witnessed great qualitative accomplishments in a bid to meet various health challenges and keep pace with global developments. From day one, the UAE recognized the importance and necessity of making the most of all advanced technologies and resources to improve this vital sector, while providing an appropriate health environment, believing that promoting the lives of its people is the end goal and focus of development, to help them fulfil their national responsibilities, and contribute effectively to the process of development.

The health sector is one of the most developed in the UAE and ranks first worldwide across a number of approved health indicators, thanks to following a health system based on the highest international standard in addition to developing the readiness of the health system to deal with pandemics and health risks, which made the country one of the best countries in the quality of healthcare.

Guided and supported by our wise leadership, the Ministry has been keen to adopt and launch many initiatives and projects to promote the health of the community through comprehensive and innovative health services of top-notch quality and prioritizing patients over anything else.

The ministry has also adopted a methodology that applies the highest standards of excellence and professionalism, built state-of-the-art hospitals equipped with the latest equipment across the country, and highly experienced medical staff and launched several campaigns to enhance health awareness of the community. The UAE's interest in the health sector is also reflected in the national health strategy.

From applying international standards in infrastructure management in health facilities to building quality systems and safety therapeutic, health and pharmaceutical systems in accordance with international standards and providing a vital legislative framework and governance, the ministry has been keen to develop health information systems and provide regulatory and oversight services to the health sector.

In addition, the UAE is geared towards artificial intelligence and digital medical services. The Ministry of Health and Prevention has developed a comprehensive plan to integrate artificial intelligence 100% into medical services, in line with the UAE's AI Strategy, in accordance with the UAE's 2071 centenary to transform patient healthcare.

1.2.2 VISION:

 A world-class health system for a community with long healthy life expectancy

1.2.3 OUR CORE VALUES:

-  Community Health First
-  Innovation & Proactiveness
-  Agility, Resilience & Readiness
-  Leadership & Compatibility
-  Integrity and Accountability
-  Equality and Transparency

1.2.4 OUR STRATEGIC OBJECTIVES 2023 – 2026:

- 1st objective** Develop the organization of the health sector in a comprehensive and integrated manner to enhance its competitiveness, flexibility, effectiveness and alignment with the directions and priorities of the Country ways that ensure community protection from diseases.
- 2nd objective** Ensure provision of proactive and quality healthcare services through qualified and licensed specialists and enable the private sector structured participation through a credible and reliable governance system
- 3rd objective** Upgrade the level of public health for a preventive, aware, safe and committed community

1.2.5 OUR ENABLING OBJECTIVES:

- 1st objective** Attract and empowering the best human talent, providing efficient and effective corporate services and digital infrastructure
- 2nd objective** Enhancing innovation practices based on agility, proactivity responsiveness and readiness within the work system

1.2.6 OUR MAIN OBJECTIVES:

- 1st objective** Plan and manage policies, legislation, research and economics of the health sector based on qualified and reliable big data
- 2nd objective** Manage preventive and community healthcare programs to enhance the quality of healthy life at the country level
- 3rd objective** Regulate the healthcare sector through licensing, monitoring and inspecting companies, individuals and medical product

1.2.7 MISSION:

-  Govern an integrated preventive and therapeutic healthcare system through the development of world-class policies and legislation, and management of public healthcare programs to ensure proactive, interconnected, comprehensive and innovative health services based on digital data for all segments of the community by qualified and specialized professionals.

CHAPTER TWO: INDICATORS THE COUNTRY'S GLOBAL COMPETITIVENESS IN THE HEALTH SECTOR

2.1 Overview:

2.2 Global competitive health indicators

HIV prevalence, % adult pop.

Malaria cases/100,000 pop.

Maternal mortality ratio

Sex Ratio at Birth

Prevalence of stunting in children under 5 years of age (%)

Prevalence of wasting in children under 5 years of age (%)

Maternal mortality rate (per 100,000 live births)

Incidence of tuberculosis (per 100,000 population)

Surviving infants who received 2 WHO-recommended vaccines (%)

Birth registrations with civil authority (% of children under age 5)

Health infrastructure

Antenatal care coverage

Death and injury from forces of nature

Diphtheria immunization

Existence of national screening programs

Health problems

Healthcare coverage

Maternal mortality

Measles immunization

Satisfaction with healthcare

Terrorism deaths

Terrorism injuries

Household air pollution attributable deaths (deaths/100,000)

2.1 Overview:

Global health indicators in which the country ranked in the top ten worldwide

2.2 Global competitive health indicators

The tables below show the indicators of the Global competitive health indicators

	Indicator	HIV prevalence, % adult pop.
1	Definition	HIV prevalence refers to the percentage of people aged 15–49 who are infected with HIV at a particular point in time, no matter when infection occurred.
	Value	0.022941136
	Rank	1
	Report Publisher	World Economic Forum
	Year of Report	2019

	Indicator	Malaria cases/100,000 pop.
2	Definition	This indicator refers to the estimated number of new cases of malaria in the economy per 100,000 population. M.F. and S.L. indicate respectively that the World Health Organization (WHO) has declared the area malariafree (M.F.) or that it has included it in the supplementary list (S.L.) of areas where malaria has never existed or has disappeared without specific measures. Hong Kong SAR and Taiwan, China have been considered malaria-free (M.F.) following the assessment by the United States Centers for Disease Control and Prevention (CDC).
	Value	MF
	Rank	1
	Report Publisher	World Economic Forum
	Year of Report	2019

3	Indicator	Maternal mortality ratio
	Definition	Number of deaths due to pregnancy-related causes per 100,000 live births
	Value	3
	Rank	5
	Report Publisher	United Nations Development Programme
	Year of Report	2020

4	Indicator	Sex Ratio At Birth
	Definition	Sex ratio at birth refers to male births per female births. The data are 5 year averages
	Value	0.944
	Rank	1
	Report Publisher	World Economic Forum
	Year of Report	2021

5	Indicator	Prevalence of stunting in children under 5 years of age (%)
	Definition	The percentage of children up to the age of 5 years that are stunted, measured as the percentage that fall below minus two standard deviations from the median height for their age, according to the WHO Child Growth Standards. UNICEF et al. (2016) report an average prevalence of wasting in high-income countries of 2.58%. We assumed this value for high-income countries with missing data.
	Value	2.58
	Rank	6
	Report Publisher	Bertelsmann Stiftung and SDSN
	Year of Report	2021

	Indicator	Prevalence of wasting in children under 5 years of age (%)
6	Definition	The percentage of children up to the age of 5 years whose weight falls below minus two standard deviations from the median weight for their age, according to the WHO Child Growth Standards. UNICEF et al. (2016) report an average prevalence of wasting in high-income countries of 0.75%. We assumed this value for high-income countries with missing data.
	Value	0.7
	Rank	6
	Report Publisher	Bertelsmann Stiftung and SDSN
	Year of Report	2021

	Indicator	Maternal mortality rate (per 100,000 live births)
7	Definition	The estimated number of women, between the age of 15-49, who die from pregnancy-related causes while pregnant or within 42 days of termination of pregnancy, per 100,000 live births.
	Value	3
	Rank	5
	Report Publisher	Bertelsmann Stiftung and SDSN
	Year of Report	2021

	Indicator	Incidence of tuberculosis (per 100,000 population)
8	Definition	The estimated rate of new and relapse cases of tuberculosis in a given year, expressed per 100,000 people. All forms of tuberculosis are included, including cases of people living with HIV.
	Value	1
	Rank	5
	Report Publisher	Bertelsmann Stiftung and SDSN
	Year of Report	2021

9	Indicator	Surviving infants who received 2 WHO-recommended vaccines (%)
	Definition	Estimated national routine immunization coverage of infants, expressed as the percentage of surviving infants children under the age of 12 months who received two WHO-recommended vaccines (3rd dose of DTP and 1st dose of measles). Calculated as the minimum value between the percentage of infants who have received the 3rd dose of DTP and the percentage who have received the 1st dose of measles.
	Value	99
	Rank	1
	Report Publisher	Bertelsmann Stiftung and SDSN
	Year of Report	2021

10	Indicator	Birth registrations with civil authority (% of children under age 5)
	Definition	The percentage of children under the age of five whose births are reported as being registered with the relevant national civil authorities.
	Value	100
	Rank	1
	Report Publisher	Bertelsmann Stiftung and SDSN
	Year of Report	2021

11	Indicator	Health infrastructure
	Definition	Health infrastructure meets the needs of society
	Value	8.5
	Rank	7
	Report Publisher	International Institute for Management Development
	Year of Report	2021

12	Indicator	Antenatal care coverage
	Definition	The percentage of women aged 15-49 years who were attended to at least once during pregnancy by a skilled health personnel (doctor, nurse or midwife).
	Value	100
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2021

13	Indicator	Death and injury from forces of nature
	Definition	The rate of age-standardized disability adjusted life years lost due to forces of nature
	Value	0
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2021

14	Indicator	Diphtheria immunization
	Definition	The percentage of children aged 12-23 months who received DPT vaccinations before 12 months or at any time before the survey.
	Value	99
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2021

15	Indicator	Existence of national screening programs
	Definition	A composite measure of whether a country has a national screening program for cervix cancer, breast cancer and HbA1c testing.
	Value	1
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2021

16	Indicator	Health problems
	Definition	The percentage of people who responded "Yes" to the survey question: "Do you have any health problems that prevent you from doing any things people your age normally can do?"
	Score	0.889174962
	Rank	2
	Report Publisher	Legatum Institute
	Year of Report	2021

17	Indicator	Healthcare coverage
	Definition	The percentage of population without healthcare coverage, either through private insurance, or state-provided coverage (regardless of whether they are able to effectively access healthcare through that coverage).
	Value	0
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2021

18	Indicator	Maternal mortality
	Definition	The rate of women who die from pregnancy-related causes while pregnant, or within 42 days of pregnancy termination per 100,000 live births.
	Value	3
	Rank	6
	Report Publisher	Legatum Institute
	Year of Report	2021

19	Indicator	Measles immunisation
	Definition	The percentage of children aged 12-23 months who received the measles vaccination before 12 months or at any time before the survey
	Value	99
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2021

20	Indicator	Satisfaction with healthcare
	Definition	The percentage of people who responded "Satisfied" to the survey question: "In the city or area where you live, are you satisfied or dissatisfied with the availability of quality healthcare?"
	Score	0.896885988
	Rank	7
	Report Publisher	Legatum Institute
	Year of Report	2021

21	Indicator	Terrorism deaths
	Definition	The death rate from terrorism, averaged over the previous five years.
	Value	0
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2021

22	Indicator	Terrorism injuries
	Definition	The injury rate from terrorism, averaged over the previous five years.
	Value	0
	Rank	1
	Report Publisher	Legatum Institute
	Year of Report	2021

23	Indicator	Household air pollution attributable deaths (deaths/100,000)
	Definition	Age-standardized deaths from household air pollution from solid fuels per 100,000 people. Household air pollution includes exposure to particulate matter less than 2.5 microns in diameter (PM2.5) due to the use of solid fuels for cooking, including coal, charcoal, wood, agricultural residue, and animal dung
	Value	0.0044
	Rank	1
	Report Publisher	Social Progress Imperative
	Year of Report	2021

CHAPTER THREE: POPULATION AND VITAL STATISTICS

3.1 UAE Population by Gender, 2020

3.2 UAE Births and Deaths, 2022

3.2.1 Crude Birth Rate

3.2.2 Births and Deaths in the UAE for the year 2022

3.2.3 Still Birth Rate 2022

3.2.4 Newborn Mortality Rate

3.2.5 Infant Mortality Rate

3.2.6 Children under 5 years old Mortality Rate

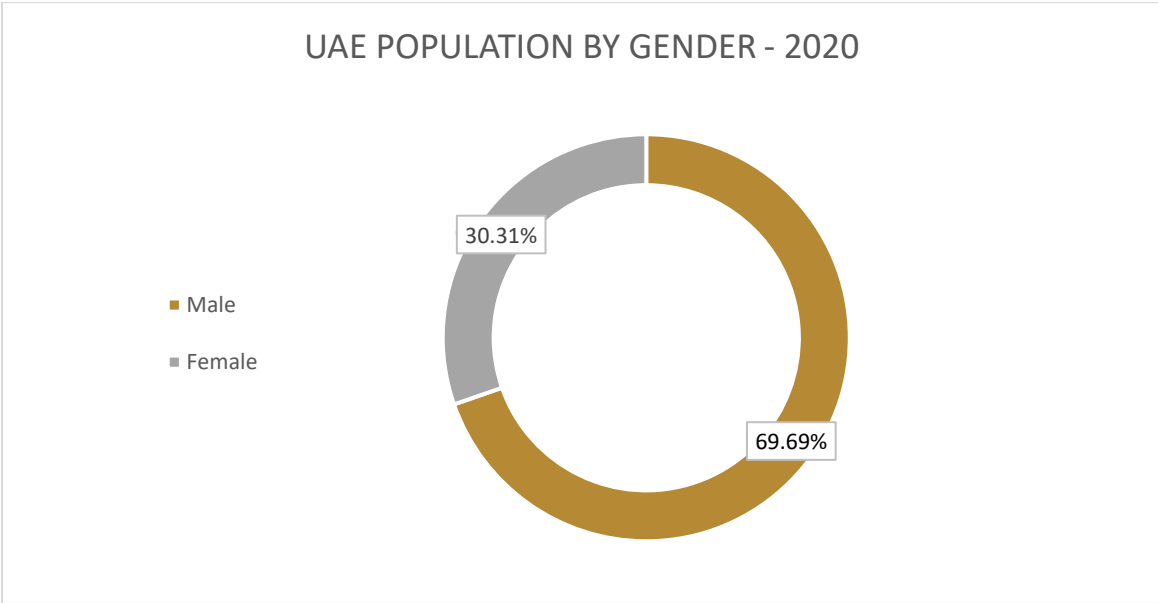

3.2.6 Deaths

3.2.7 Low Weight at birth

3.1 UAE POPULATION BY GENDER, 2020

The population of the United Arab Emirates bifurcated by Gender for year 2020 is presented below.

Population - 2020		Total
Male	Female	
6,468,460	2,813,950	9,282,410

**Source – Federal Competitiveness and Statistics Center – Open Data

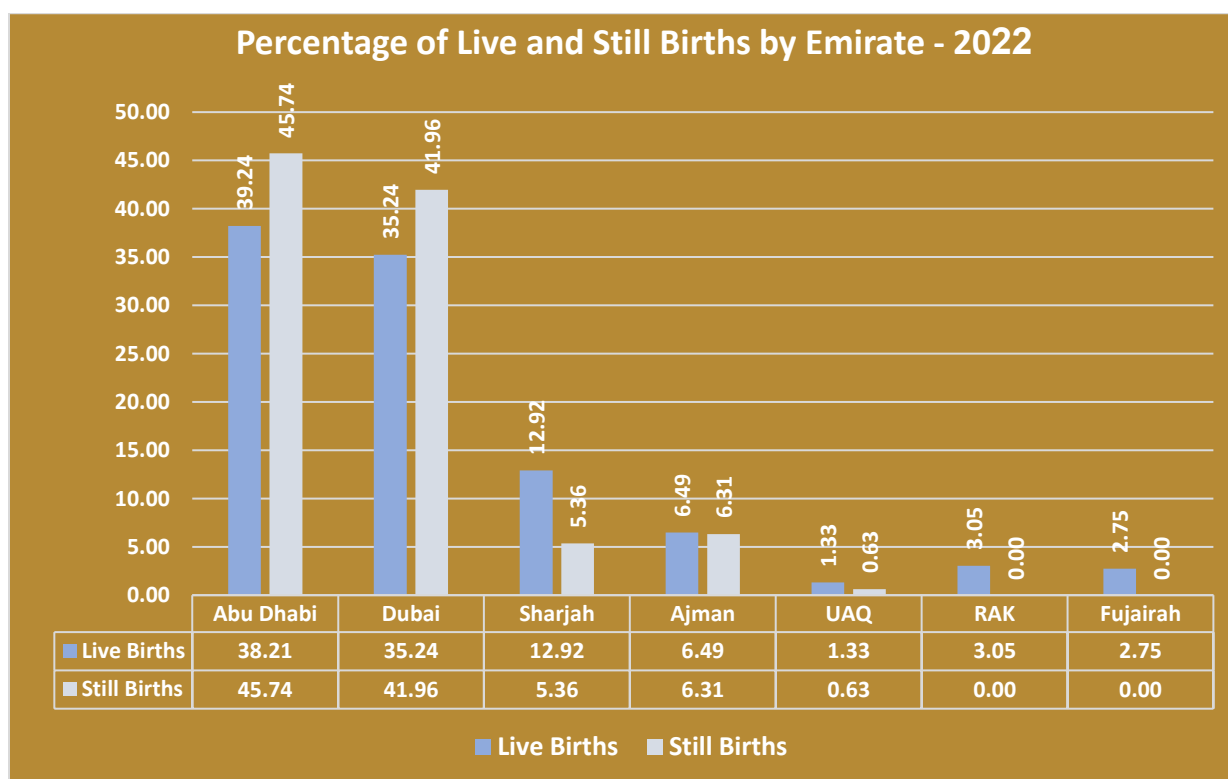

3.2 UAE Births and Deaths, 2022

3.2.1 Crude Birth Rate

The number of registered live births reached to (96,631) in 2022. Citizens constituted 32% of the total births and males constituted (52%) of the total citizen births, compared to approximately (48%) for females. With a total crude birth rate (10.41) One birth per thousand population in 2022. The stillbirth rate was 3.27 per thousand live births in 2022.

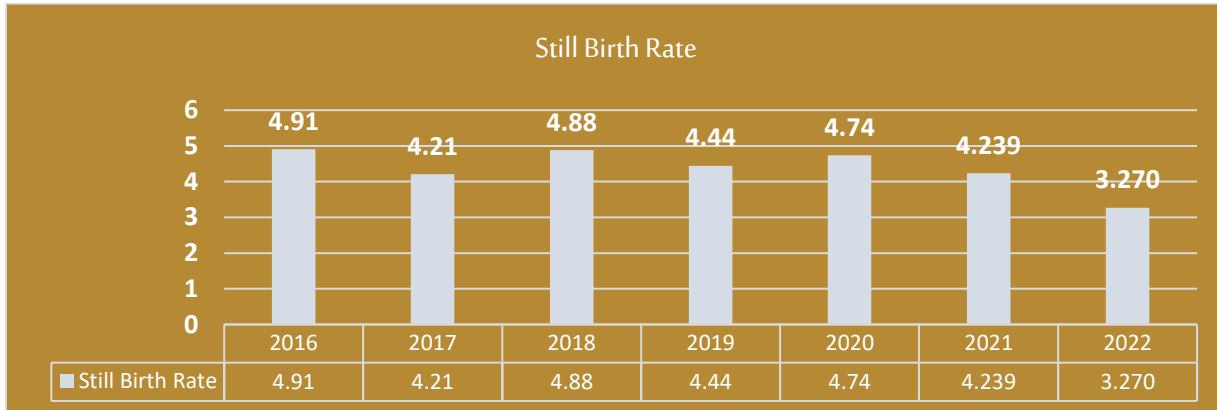

3.2.2 Births and Deaths in the UAE for the year 2022

Data	Citizen				Non-Citizen				Total			
	Male	Female	Not Known	Total	Male	Female	Not Known	Total	Male	Female	Not Known	Total
Registered Live Births	16,063	14,826	0	30,889	33,916	31,826	0	65,742	49,979	46,652	0	96,631
Registered Still Births	9	8	1	18	165	130	4	299	174	138	5	317
Total Registered Deaths	1,666	1,308	1	2,975	6,565	2,214	8	8,787	8,231	3,522	9	11,762

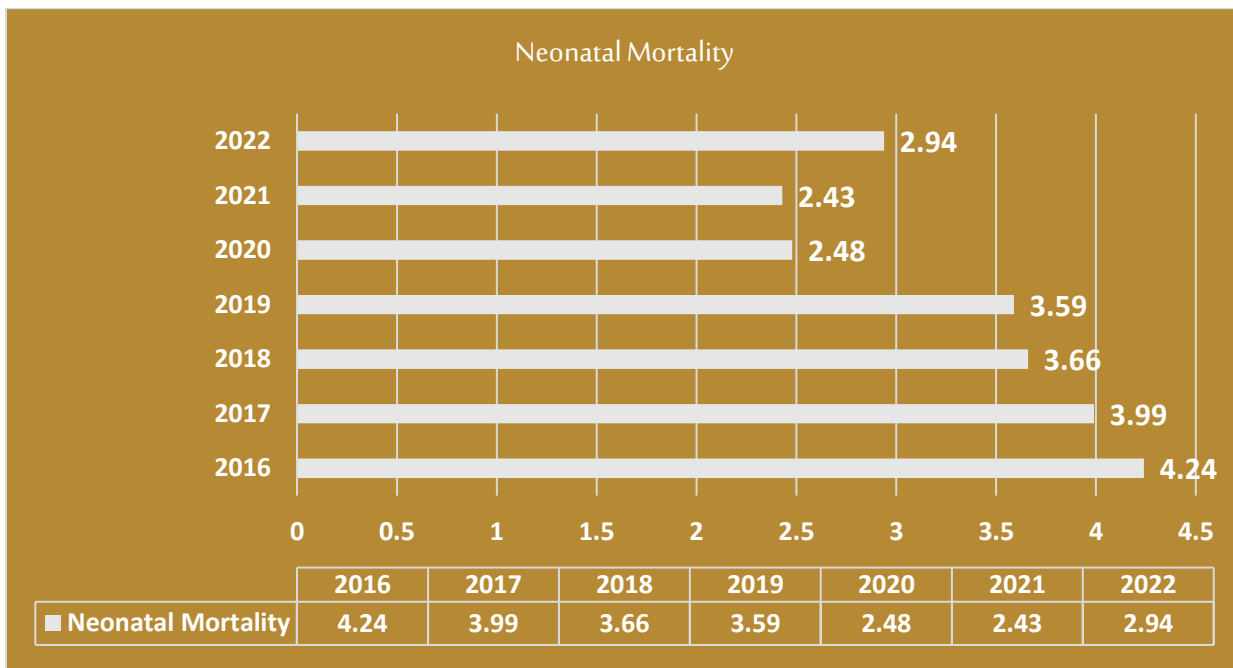

3.2.3 Still Birth Rate 2022

The stillbirth rate Decreased from 4.23 for the year 2021 to 3.27 for the year 2022, The graph below shows the values of previous years

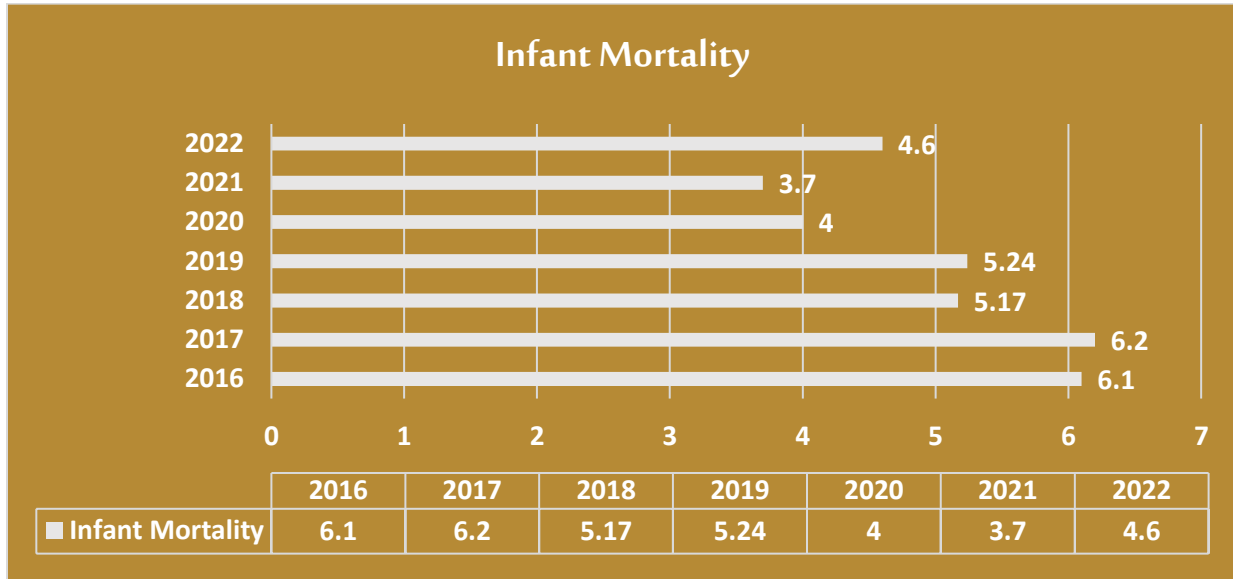

3.2.4 Neonatal Mortality Rate

The neonatal mortality rate increased from 2.43 per thousand live births in 2021 to 2.94 per thousand live births in 2022, The graph below shows the values of previous years

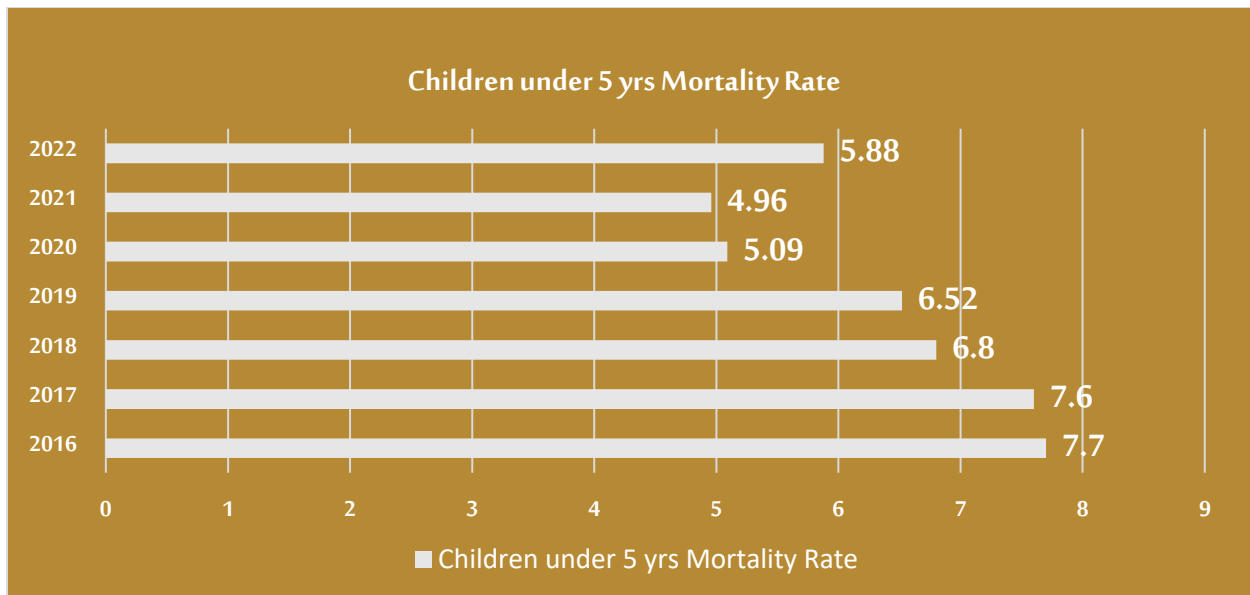

3.2.5 Infant Mortality Rate

In 2022, the infant mortality rate was 4.6 per 1,000 live births, this represents an increase from 2021 when it was 3.7 per 1,000 live births, The Graphical representation of statistical data for previous years shown in the table below

3.2.6 Children under 5 years old Mortality Rate

In United Arab Emirates the mortality rate for children under five years of age increased from 4.96 per 1,000 live births in 2021 to 5.88 per 1,000 live births in 2022.

3.2.6 Deaths

The number of crude deaths recorded in the country reached (11,762) deaths, with a crude rate of (1.27) per thousand population, as this indicator is considered one of the lowest recorded global indicators

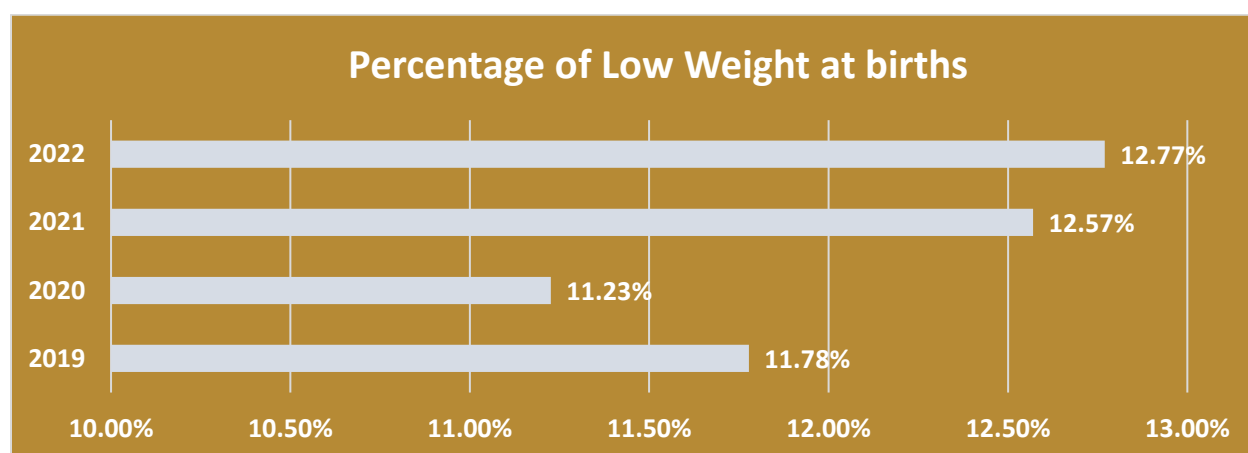

Data	Citizen				Non-Citizen				Total			
	Male	Female	Not Known	Total	Male	Female	Not Known	Total	Male	Female	Not Known	Total
Total Registered Deaths	1,666	1,308	1	2,975	6,565	2,214	8	8,787	8,231	3,522	9	11,762

3.2.7 Low Weight at birth

According to the WHO & UNICEF report (UNICEF-WHO LOW BIRTHWEIGHT ESTIMATES), the cut-off point for low birth weight is 500g and records more than 6000g. In addition, we excluded any missing data out of the population under study. Therefore, for applying this rule, we conducted the study calculation on the 92,546 out of all total births in UAE which equals 99.8% of all births, the percentage of low birth weight in UAE is 12.77% for the year 2022, the graph below shows the values of previous years

low weight at birth from 2019 to 2022

year	2019	2020	2021	2022
Percentage of Low Weight at births	11.78%	11.23%	12.57%	12.77%

CHAPTER FOUR: HEALTH WORKFORCE

4.1 About the health workforce

4.2 Overall UAE Health Workforce per emirate, gender and sector

4.2.1 Table - Technical manpower for the year 2022 by emirate and sector

4.2.2 Percentage distribution of the health workforce in the emirates of the country

4.3 Medical Doctors in UAE

4.1 ABOUT THE HEALTH WORKFORCE

Due to the expansion of health services under the Ministry of Health and Prevention, it is essential to strengthen the workforce in the health sector.

The number of workers in the health sector in the country at the end of December 2022 reached (145,981) , These including (29,860) Medical Doctors, (8,486) Dentists , (13,922) pharmacists and (63,366) Nurses distributed over the emirates of the country according to the table below;

4.2 OVERALL UAE HEALTH WORKFORCE PER EMIRATE, GENDER AND SECTOR

Table - Technical manpower for the year 2022 by Gender

Gender	Medical Doctors	Dentists	Pharmacists	Nurses	Technicians	Total
Male	16,743	3,886	6,651	12,848	12,176	52,304
Female	13,117	4,600	7,271	50,518	18,171	93,677
Total	29,860	8,486	13,922	63,366	30,347	145,981

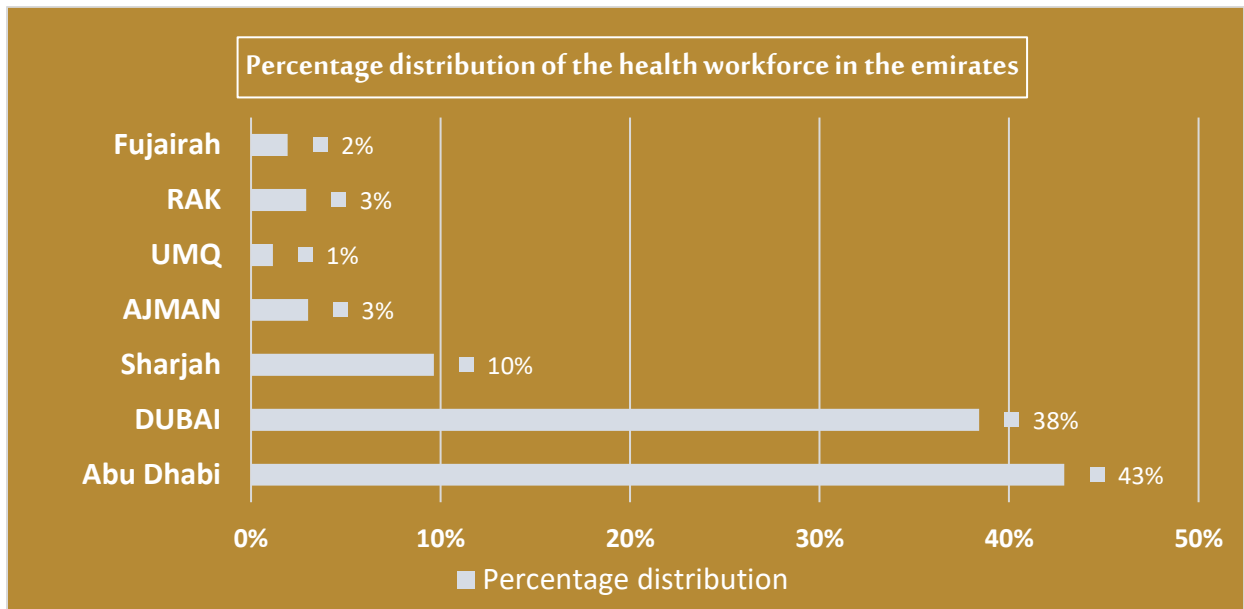

4.2.1 TABLE - TECHNICAL MANPOWER FOR THE YEAR 2022 BY EMIRATE AND SECTOR

Distribution of the health workforce in the emirates of the country 2022							
Emirate	SECTOR	Medical Doctors	Dentists	Pharmacists	Nurses	Technicians	Grand Total

CHAPTER NINE: PREVENTIVE MEDICINE SERVICES

9.1 Overview of Preventive Medicine center's in Medical Districts

9.2 Services of preventive medicine center's at Ministry of Health and Prevention

9.2.1 Communicable diseases recorded by disease and region for 2022

9.3 Visitors to Communicable Disease Control Centers by Profession, Region and Result 2022

9.3.1 Visitors to Communicable Disease Control Centers by Profession, Nationality and Result 2022

9.1 OVERVIEW OF PREVENTIVE MEDICINE CENTERS IN MEDICAL DISTRICTS

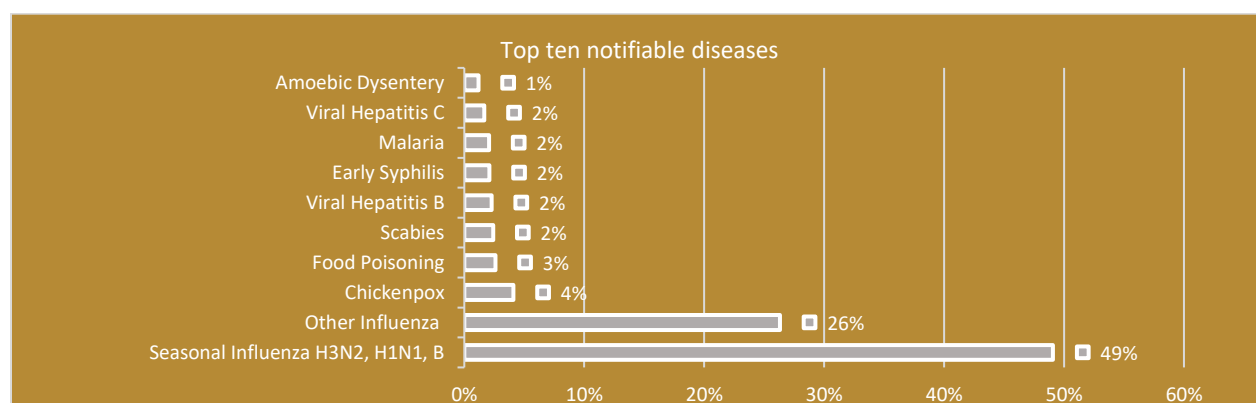

Preventive medicine departments and centers in the various medical regions implement preventive activities and programs, as they supervise the implementation of preventive programs, health education and communicable disease control programs, which include more than 36 infectious diseases such as:

- Immigrant Disease Control Program.
- Anti-Acquired Immunodeficiency Syndrome Program.
- Malaria Control Program
- The Expanded Immunization Program, which has achieved remarkable growth recently, which has led to a reduction in the incidence of most of the child diseases targeted by the program.
- The polio eradication program, the measles eradication program, and others, and as a natural result of the high rates of vaccination coverage, was a noticeable decrease in the incidence of diseases, as the country did not witness any cases of diphtheria, and congenital tetanus was eradicated from the country, so no infections were recorded during

In recent years, in addition to the eradication of poliomyelitis, which has not been recorded for nearly 20 years, and the figure shows the incidence of communicable

Some of most famous notifiable diseases by emirate

#	Disease	TOTAL	%

BRIEF SUMMARY:

Global competitive health indicators:

1. HIV prevalence, % adult pop. RANK: 1
2. Malaria cases/100,000 pop. RANK: 1
3. Maternal mortality ratio RANK: 5
4. Sex Ratio At Birth RANK: 1
5. Prevalence of stunting in children under 5 years of age (%) RANK: 6
6. Prevalence of wasting in children under 5 years of age (%) RANK: 6
7. Maternal mortality rate (per 100,000 live births) RANK: 5
8. Incidence of tuberculosis (per 100,000 population) RANK: 5
9. Surviving infants who received 2 WHO-recommended vaccines (%) RANK: 1
10. Birth registrations with civil authority (% of children under age 5) RANK: 1
11. Health infrastructure RANK: 7
12. Antenatal care coverage RANK: 1
13. Death and injury from forces of nature RANK: 1
14. Diphtheria immunization RANK: 1
15. Existence of national screening programs RANK: 1
16. Health problems RANK: 2
17. Healthcare coverage RANK: 1
18. Maternal mortality RANK: 6
19. Measles immunization RANK: 1
20. Satisfaction with healthcare RANK: 7
21. Terrorism deaths RANK: 1
22. Terrorism injuries RANK: 1
23. Household air pollution attributable deaths (deaths/100,000) RANK: 1

UAE POPULATION BY GENDER, 2020:

THE POPULATION OF THE UAE: 9,282,410 MALES: 6,468,460 FEMALES: 2,813,950

UAE BIRTHS AND DEATHS, 2022:

- 1) TOTAL NUMBER OF LIVE BIRTHS: 96,631
- 2) TOTAL NUMBER OF STILL BIRTHS: 317
- 3) TOTAL NUMBER OF BIRTH (LIVE & STILL): 96,948
- 4) TOTAL CRUDE BIRTH RATE: 10.41
- 5) PERCENTAGE OF LOW WEIGHT AT BIRTHS 2022: 12.77%
- 6) STILL BIRTH RATE 2022: 3.27
- 7) TOTAL REGISTERED DEATHS: 11,762
- 8) NUMBER OF CRUDE DEATHS RECORDED: 1.27 PER THOUSAND POPULATION
- 9) NEONATAL MORTALITY: 2.94 PER THOUSAND LIVE BIRTHS
- 10) INFANT MORTALITY RATE: 4.6 PER 1,000 LIVE BIRTHS
- 11) CHILDREN UNDER 5 YRS MORTALITY RATE: 5.88 PER 1,000 LIVE BIRTHS

HEALTH WORKFORCE:

- 1) THE TOTAL NUMBER OF HUMAN HEALTH WORKFORCE 2022: 145,981
- 2) THE TOTAL NUMBER OF MEDICAL DOCTORS 2022: 29,860
- 3) THE TOTAL NUMBER OF DENTISTS 2022: 8,486
- 4) THE TOTAL NUMBER OF PHARMACISTS 2022: 13,922
- 5) THE TOTAL NUMBER OF NURSES 2022: 63,366
- 6) THE TOTAL NUMBER OF TECHNICIANS 2022: 30,347

HOSPITALS AND BEDS 2022:

- 1) THE TOTAL NUMBER OF Operating HOSPITALS: 172 | GOVERNMENT: 55 PRIVATES: 117
- 2) THE TOTAL NUMBER OF BEDS: 19,102 | GOVERNMENT: 9,948 PRIVATES: 9,154

HOSPITAL SERVICES 2022:

- 1) TOTAL NUMBER OF PATIENTS ATTENDING TO THE HOSPITAL: 23,298,220 | GOVERNMENT: 6,687,218 PRIVATES: 16,611,002
- 2) TOTAL NUMBER OF PATIENTS ATTENDING TO THE ACCIDENT AND EMERGENCY CLINICS: 3,393,896 | GOVERNMENT: 1,812,589 PRIVATES: 1,581,307
- 3) TOTAL NUMBER OF ADMITTED PATIENTS IN THE HOSPITAL: 825,864 | GOVERNMENT: 286,635 PRIVATES: 539,229
- 4) TOTAL NUMBER DAYS OF STAY IN THE HOSPITAL: 2,763,883 | GOVERNMENT: 1,434,039 PRIVATES: 1,329,843

GOVERNMENT HEALTH CENTER SERVICES 2022:

TOTAL NUMBER OF VISITORS TO GOVERNMENT HEALTH CENTERS: 9,100,346 | Citizen: 4,275,248 Non-Citizen: 4,825,098

HEALTHCARE FACILITIES 2022:

TOTAL NUMBER OF HEALTHCARE FACILITIES: 5,770 | GOVERNMENT: 749 PRIVATES: 5,021

Visitors to Communicable Disease Control Centers 2022:

- 1) TOTAL NUMBER OF VISITORS TO COMMUNICABLE DISEASE CONTROL CENTERS: 4,270,300
- 2) TOTAL NUMBER OF VISITORS TO COMMUNICABLE DISEASE CONTROL CENTERS FIT: 3,925,950
- 3) TOTAL NUMBER OF VISITORS TO COMMUNICABLE DISEASE CONTROL CENTERS Non-Fit: 10,374
- 4) TOTAL NUMBER OF VISITORS TO COMMUNICABLE DISEASE CONTROL CENTERS NOT COMPLETE: 62,031
- 5) TOTAL NUMBER OF VISITORS TO COMMUNICABLE DISEASE CONTROL CENTERS Pending Request: 271,94
